Message from the Chief Executive

Dear residents, families and friends,

I am very pleased to advise that we now have no active cases of COVID at any of our sites. It's been a challenging few weeks for our St Basil's community and I thank you all for your support and patience.

Visiting and resident outings

Although there are currently no active cases of COVID, we do have a small number of residents in their recovery phase at Aegean Village and Croydon Park. This means we may still need to take extra precautions in some areas, so please continue to follow the direction of staff when visiting.

With high levels of COVID and flu in our community, we know that an outbreak at our sites can occur at any time. Please remain vigilant and if you are feeling unwell, do not visit, even if you have tested negative on a RAT.

If you are planning on taking your loved one out, please complete the *Resident Outing Risk Assessment form* at <https://forms.office.com/r/wHPcq9Wks8>.

Flu vaccinations

A reminder that anyone visiting a St Basil's site must now **provide us with evidence of a current flu vaccination**. This is a mandatory requirement from SA Health and visitors will not be able to enter any of our sites unless they provide this or a valid medical exemption.

You can provide this by the link below, or when you sign-in at your next visit.

St Basil's Visitor 2022 Flu Register: <https://sine.co/wf/tTdEnVCR>

We value your feedback

Our **HelloCare family survey closes on Thursday 7 July**. We can only continue to improve the services and care we provide with your feedback. If you can spare a few minutes, please click on the link below to complete the survey.

Thank you for your continued support. If you have any concerns or questions, please call your St Basil's site directly, chat to our care staff if you are onsite, or email me at ce@stbasils.com.au.

Regards,

Michelle Church
Chief Executive, St Basil's Homes (SA)
